TABLE OF CONTENTS

INTRODUCTION 1

Welcome 1

Who Should Read 1
What is Covered 1
Conventions Used 2
How to Contribute to This Book 2

PART I: TIPS 1

Chapter 1 User Interface 3

Overview 3
Startup Screen 3
Getting Started Tips 5
Selecting Objects 12
Modifying Objects 16
The Gripper 25
WorkPlanes 29
Snaps 30
Tool Palettes 32
Preferences 34
Layers 39
Performance 41
Concept Explorer 43
Localization 46

Chapter 2 Drafting 49

Overview 49
Text and Dimensions 49
Curves 57
Symbols 79
BOMs 81
Draw Views 84
Constraints 87
Miscellaneous 90

Chapter 3 Surface Modeling 97

Overview 97
Skinning and Lofting 97
Covering 106
Net Surface 112
Swept Surface 114
Surface Utilities 115
Subdivision Mesh 123

Chapter 4 Solid Modeling 137

Overview 137
Primitives 137
Solid From Profiles 139
Feature Based Solids 142
Direct Face Editing 158
Solid Modeling Utilities 161

Chapter 5 Rendering and Display 177

Overview 177
Object Display Resolution 177
Viewing Data 181

Chapter 6 Photo Realistic Rendering 191

Overview 191
Applying Materials 191
Adjusting Angles of Applied Materials 193
Achieving Realistic Renderings 196

Chapter 7 Sharing Data 205

Overview 205
Surface & Solid Formats 205
Facet Based Formats 210
Additional Formats 219
More Data Sharing Tips 223

Chapter 8 3D Printing 231

Overview 231
3D Printing 231
STL Files 236
3MF Files 240
Preparing Models for 3D Printing 242
More 3D Printing Tips 247

Chapter 9 PowerPack 249

Overview 249
Mesh Tools 249
Entity Management 252
Advanced Modeling 255

PART 2: CREATE THIS! TUTORIALS 259

Chapter 10 Paper Clip 261

Beginning Level 262
Learn to use MultiLine tool, Select Chain tool, and Solid Pipe tool 262

Chapter 11 Breadboard 267

Beginning Level 268
Learn to mirror, fillet, and extrude a solid from profile 268

Chapter 12 Wine Bottle & Glass 277

Beginning Level 278

Learn to lathe a solid from profile and shell 278

Chapter 13 Hair Dryer **285**

Intermediate Level 286
Learn to skin a solid from profile, blend hard edges, and shell solids 286

Chapter 14 Y Pipe **297**

Intermediate Level 298
Learn to use Skin, Mirror, Blend, and Shell tools 298

Chapter 15 Coffee Mug **305**

Intermediate Level 306
Learn to draw profiles, lathe, shell, join solids, and fillet edges 306

Chapter 16 Importing Splines **315**

Intermediate Level 315
Learn to import point, throughpoint, vectorspline, polyline, lawspline, and lawsurface splines 315

Chapter 17 Creating a Square Funnel **321**

Intermediate Level 321
Learn to create a square funnel with introductory skinning and lofting techniques 321

Chapter 18 Creating a 2D/3D Star **327**

Beginner Level 327
Learn to *create a 2D and 3D star using the trim and extrude tools* 327

Chapter 19 Trace Image to 3D **333**

Beginner Level 333
Learn to *trace an image into 2D curves and lathe into 3D solid* 333

Chapter 20 Creating a twisted torus **339**

Intermediate Level 339
Learn to *create an interesting math shape using the revolve with twist tool* 339

APPENDIX OF QUESTIONS **349**

GLOSSARY **365**

INDEX **373**
